

CITY UPDATE

May 2021

2021 Street Projects Well Underway

The City Council in March awarded contracts for reconstruction of 24th Street from Forest to Jefferson, 25th Street from Forest to West River and Madison Street from 19th to 22nd.

These projects carry a total cost of about \$4 million and include complete replacement of the streets and all underground utilities. 94 lead water service laterals will be replaced.

New Playground Equipment Coming to Neshotah Park

The 2021 City Budget includes funds for the first phase of a multi-year upgrade to the playground equipment at Neshotah Park. About \$65,000 is being invested in two new play structures that should be installed by the end of May: an inclusive climbing structure and a zipline structure. Expect the new equipment to be installed by Memorial Day.
