IMPORTANT: THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

As an essential part of our commitment to you, the Two Rivers Fire Department maintains the privacy of certain confidential health care information about you, known as Protected Health Information or PHI. We are required by law to protect your health care information and to provide you with the attached Notice of Privacy Practices.

The Notice outlines our legal duties and privacy practices respect to your PHI. It not only describes our privacy practices and your legal rights, but lets you know, among other things, how the Two Rivers Fire Department is permitted to use and disclose PHI about you, how you can access and copy that information, how you may request amendment of that information, and how you may request restrictions on our use and disclosure of your PHI.

The Two Rivers Fire Department is also required to abide by the terms of the version of this Notice currently in effect. In most situations we may use this information as described in this Notice without your permission, but there are some situations where we may use it only after we obtain your written authorization, if we are required by law to do so. We respect your privacy, and treat all health care information about our patients with care under strict policies of confidentiality that all of our staff is committed to following at all times.

Purpose of this Notice: The Two Rivers Fire Department is required by law to maintain the privacy of certain confidential health care information, known as Protected Health Information or PHI, and to provide you with a notice of our legal duties and privacy practices with respect to your PHI. This Notice describes your legal rights, advises you of our privacy practices, and lets you know how the Two Rivers Fire Department is permitted to use and disclose PHI about you.

The Two Rivers Fire Department is also required to abide by the terms of the version of this Notice currently in effect. In most situations we may use this information as described in this Notice without your permission, but there are some situations where we may use it only after we obtain your written authorization, if we are required by law to do so.

Uses and Disclosures of PHI: The Two Rivers Fire Department may use PHI for the purposes of treatment, payment, and health care operations, in most cases without your written permission. Examples of our use of your PHI:

For treatment. This includes such things as verbal and written information that we obtain about you and use pertaining to your medical condition and treatment provided to you by us and other medical personnel (including doctors and nurses who give orders to allow us to provide treatment to you). It also includes information we give to other health care personnel to whom we transfer your care and treatment, and includes transfer of PHI via radio or telephone to the hospital or dispatch center as well as providing the hospital with a copy of the written record we create in the course of providing you with treatment and transport.

For payment. This includes any activities we must undertake in order to get reimbursed for the services we provide to you, including such things as organizing your PHI and submitting bills to insurance companies (either directly or through a third party billing company), management of billed claims for services rendered, medical necessity determinations and reviews, utilization review, and collection of outstanding accounts.

For health care operations. This includes quality assurance activities, licensing, and training programs to ensure that our personnel meet our standards of care and follow established policies and procedures, obtaining legal and financial services, conducting business planning, processing grievances and complaints, creating reports that do not individually identify you for data collection purposes, fundraising, and certain marketing activities.

Reminders for Scheduled Transports and Information on Other Services. We may also contact you to provide you with a reminder of any scheduled appointments for non-emergency ambulance and medical transportation, or for other information about alternative services we provide or other health-related benefits and services that may be of interest to you.

Use and Disclosure of PHI without Your Authorization. The Two Rivers Fire Department is permitted to use PHI without your written authorization, or opportunity to object in certain situations, including:

- For the Two Rivers Fire Department’s use in treating you or in obtaining payment for services provided to you or in other health care operations;
- To another health care provider or entity for the payment activities of the provider or entity that receives the information (such as your hospital or insurance company);
- To another health care provider (such as the hospital to which you are transported) for the health care operations activities of the entity that receives the information as long as the entity receiving the information has or has had a relationship with you and the PHI pertains to that relationship;
- For health care fraud and abuse detection or for activities related to compliance with the law;
- To a family member, other relative, or close personal friend or other individual involved in your care if we obtain your verbal agreement to do so or if we give you an opportunity to object to such a disclosure and you do not raise an objection. We may also disclose health information to your family, relatives, or friends if we infer from the circumstances that you would not object;
- For example, we may assume you agree to our disclosure of your personal health information to your spouse when your spouse has called the ambulance for you. In situations where you are not capable of objecting (because you are not present or due to your incapacity or medical emergency), we may, in our professional judgment, determine that a disclosure to your family member, relative, or friend is in your best interest. In that situation, we will disclose only health information relevant to that person’s involvement in your care. For example, we may inform the person who accompanied you in the ambulance that you have certain symptoms and we may give that person an update on your vital signs and treatment that is being administered by our ambulance crew.
