2. Local Impacts of July 14 Storms/Deluge

The storms that swept through our area in the early morning hours of July 14 results in rainfall totals of 5 to 7 inches around the city.

Storm water entering the City's sanitary sewer collection system raised incoming flows at the wastewater treatment plant from 2,500 gpm (3.6 million gallons per day) to over 8,000 gpm (over 11.5 million gallons per day).

These extraordinarily high flows resulted in an overflow at the treatment plant, where about 5,250 gallons of untreated effluent flowed into a storm sewer and then to the river and Lake Michigan.

6. 2023 Washington Street Redevelopment

Sale agreement signed July 13 between City and TA Properties, LLC, consistent with action of the City Council at its July 5 meeting. Agreement provides for a purchase price of \$10,000 and the investment of at least \$100,000 into this property by the purchaser.

This long-vacant, tax-delinquent, property was acquired by the City in April 2020, for redevelopment purposes. Manitowoc County assigned to the City the right to take ownership of the property for back taxes.

8. Leasing Program Update

- City has received 9 vehicles so far, under the fleet leasing arrangement with Enterprise Fleet Leasing. We hope to get 3 more yet this year.
- There were 21 vehicles in the initial orders, but 9 were cancelled by the manufacturer due to the shortage of microchips and other Covid-related reasons.
- Work has begun compiling the orders for the 2022 vehicle replacements, which will be presented to City Council at budget time.
