Use zip ties to magically morph plain plastic hangers into stunning outdoor décor to last the season.

**NEW PLAYGROUND AT NESHOTAH PARK**

Construction is underway and will be completed in early October on a major new playground at Neshotah Park. There will be a dedication event on Sunday, October 15, from 10:00 AM to noon. The playground occupies the infield area of the park's ball diamond, which has been taken out of service. It will be surrounded by sidewalk, with benches and trees positioned around the perimeter. The first local playground to feature poured-in-place resilient surfacing (no more wood chips), it will also be handicapped accessible.

This \$400,000 project is the first major project implementing the Master Plan for Neshotah Park, which was developed by the City's Advisory Recreation Board and Parks/Rec Director Mike Mathis and staff, aided by significant public input, and adopted by the City Council in May 2023.

Future improvements addressed in the plan include: walkways for improved access into and through the park; pollinator gardens in some areas that are now mowed turf; new trees; installing some form of beach hazard advisory system, upgrading park restroom and concession facilities; evaluating a possible shuttle system to transport people between the beach and outlying parking areas, downtown and local hotels during peak use times.
