Blighted Properties and Junk Vehicles

The appearance of our community has a direct connection to our crime level. A community with clean and well maintained properties presents the image of a community of concerned and caring members. The incidence of crime tends to be lower in such communities than were blighted properties are allowed to exist.

The Two Rivers Police Department, with assistance from the Inspections Department, is the primary enforcement department for the City in matters pertaining to blighted properties and the presence of junk vehicles.

Citizens are encouraged to report their personal observations of problem properties. Citizens may make such reports in-person at the Police Department, report by telephone by calling Joint Dispatch Center at 920-686-7200, or by completing this electronic form.

Contact the Two Rivers Police Department if you have any related questions. trpolice@tworivers.org or 920-793-1191.

**Directions:** Complete the first two fields. If you want an officer to contact you with the results of our actions provide your name, telephone number or email address.

Problem property address:

Briefly explain the problem:
