## Notice of Road Closure – 17<sup>th</sup> & Washington

DPW plans to begin replacement of the red concrete crosswalks at 17<sup>th</sup> and Washington on July 11, 2022. The project will be completed in three phases, with each phase taking approximately one week for installation and cure time. The goal is to have the project completed by August 1, 2022, subject to both the availability of materials and weather conditions. A detailed breakdown of the project is as follows:

**Phase 1:** Replacement of red crosswalk in the center two lanes on the north and south sides of the intersection. The center two lanes will be blocked off beginning July 11<sup>th</sup> and will remain closed for one week after concrete is poured to allow for curing time. Our goal is to have the two lanes open by July 18<sup>th</sup>.

**Phase 2:** Replacement of the red crosswalk in the east most lane of Washington on both the north and south sides of the intersection, as well as replacement of the full crosswalk on 17<sup>th</sup> street. The east lanes of Washington and the entirety of 17<sup>th</sup> St from Washington to E Park St will be closed from July 18<sup>th</sup> – July 25<sup>th</sup>.

**Phase 3:** Replacement of the red crosswalk in the west most lane of Washington on both the north and south sides of the intersection, as well as replacement of the full crosswalk on 17<sup>th</sup> street. The west lanes of Washington and the entirety of 17<sup>th</sup> St from Washington to W Park St will be closed from July 25<sup>th</sup> – July 31<sup>st</sup>.
